STUDENT PROFILE REPORT

Individual Inventory-Based Student Profiling

1. Report Overview

Field	Value
Academic Year	2026-2027 (current Academic Year)
Campus filter	All Campuses
College filter	All Colleges
Program filter	All Programs
Year Level filter	All Year Levels
Reporting Scope	Institution-wide
Submitted Inventory Profile Population	150 submitted Individual Inventories
Generated At	11 October 2026, 3:00 PM (Asia/Manila)

2. Populations in This Report

This report counts two different populations. They answer different questions and are not interchangeable:

- **Submitted Inventory Profile Population** — the submitted Individual Inventories described by every distribution in Sections 4 to 6 and Appendix A.
- **Current Student Inventory Coverage** — active Student accounts with a Current lifecycle status, and whether each Student has a submitted, draft, or no Individual Inventory for the Academic Year.

No submission rate is calculated by dividing one population by the other because they are counted on different bases (Section 2.3).

2.1 Submitted Inventory Profile Population (n = 150)

College	Campus	Programs	Inventories	% of Population
CAS — College of Synthetic CAS	Main Campus	2	76	50.67%
CCMS — College of Synthetic CCMS	Main Campus	2	74	49.33%
Total		**4**	**150**	**100.00%**

2.2 Current Student Inventory Coverage

Inventory Status	Students
Eligible current Students	**153**
Submitted	150
Draft	1
Without Individual Inventory	2

Submitted + Draft + Without Individual Inventory = Eligible current Students. Each Student is counted once.

2.3 Reconciliation of Coverage and Profile Population

Population	Count
Submitted Inventories in the profile population	**150**
Student also counted as Submitted in Current Coverage	150
Student not counted in Current Coverage (no longer an active Current Student, or currently affiliated outside the coverage scope)	0
Students counted as Submitted in Current Coverage	**150**
Inventory also in the profile population	150
Inventory outside the profile population (its recorded Program, College, Campus, or Year Level is outside the selected profile filters, or it has no recorded Program)	0

2.4 How the Selected Filters Apply

Filter	Submitted Inventory Profile Population	Current Student Inventory Coverage
Academic Year	Applied	Applied
Reporting scope	Institution-wide	Institution-wide
Campus	Not selected	Not selected
College	Not selected	Not selected
Program	Not selected	Not selected
Year Level	Not selected	Not selected

3. Methodology and Data Notes

Population basis. PROFILE POPULATION NOTE.

Coverage basis. CANONICAL CURRENT COVERAGE NOTE.

Denominators and percentages. Every distribution in Sections 4 to 6 uses the Submitted Inventory Profile Population (n = 150) as its denominator. Percentages are calculated from exact counts and rounded half-up to two decimal places. Each row is rounded independently, so the printed rows may add up to 99.99% or 100.01%; Total rows show the exact count and 100.00%.

Age. Exact age in years on the institutional date the Inventory was submitted, calculated from the recorded date of birth. It is not the Student's age today. Ages are listed individually, without overlapping groups.

Not specified and legacy values. Not specified means the Student chose that response. Not recorded / legacy means the structured value is missing, usually because an older Inventory predates structured capture; it is never treated as a Student response. A Not recorded / legacy row is printed only when at least one Inventory lacks the value.

Residence. City / Municipality uses the structured PSGC location saved for the Student's current residence. Province and Region are shown as context. Addresses are not parsed and locations are not inferred.

Program breakdown. Appendix A repeats each distribution for every College and its Programs. College tables use that College's submitted Inventories as their denominator, so their totals reconcile to the College population, not to the institution-wide total.

Confidentiality. Counts are exact and are not suppressed. Aggregate tables are not guaranteed to be anonymous: small counts, narrow filters, or comparing reports generated with different filters can reveal information about individual Students. Share this report only with personnel authorized to view it.

4. Demographics

Table 1. Distribution of Students by Sex

Population: submitted Individual Inventories (n = 150)

Sex	Frequency	Percentage
Male	76	50.67%
Female	74	49.33%
Total	**150**	**100.00%**

Table 2. Distribution of Students by Age at Inventory Submission

Population: submitted Individual Inventories (n = 150)

Age (years)	Frequency	Percentage
18	52	34.67%
19	50	33.33%
20	48	32.00%
Total	**150**	**100.00%**

Table 3. Distribution of Students by Civil Status

Population: submitted Individual Inventories (n = 150)

Civil Status	Frequency	Percentage
Single	32	21.33%
Married	32	21.33%
Solo Parent	30	20.00%
Other	28	18.67%
Not specified	28	18.67%
Total	**150**	**100.00%**

Table 4. Distribution of Students by PWD Status

Population: submitted Individual Inventories (n = 150)

PWD Status	Frequency	Percentage
PWD	52	34.67%
Non-PWD	50	33.33%
Not specified	48	32.00%
Total	**150**	**100.00%**

Table 5. Distribution of Students by Current Religion

Population: submitted Individual Inventories (n = 150)

Religion	Frequency	Percentage
Roman Catholic	52	34.67%
Born Again	50	33.33%
Not specified	48	32.00%
Total	**150**	**100.00%**

5. Family and Household

Table 6. Distribution of Students by Mother's Life Status

Population: submitted Individual Inventories (n = 150)

Life Status	Frequency	Percentage
Living	52	34.67%
Deceased	50	33.33%
Not specified	48	32.00%
Total	**150**	**100.00%**

Table 7. Distribution of Students by Father's Life Status

Population: submitted Individual Inventories (n = 150)

Life Status	Frequency	Percentage
Living	52	34.67%
Deceased	50	33.33%
Not specified	48	32.00%
Total	**150**	**100.00%**

Table 8. Distribution of Students by Parent Family Status

Population: submitted Individual Inventories (n = 150)

Parent Family Status	Frequency	Percentage
Married	76	50.67%
Widowed	74	49.33%
Total	**150**	**100.00%**

Table 9. Distribution of Students by Combined Parent Annual Income

Population: submitted Individual Inventories (n = 150)

Income Bracket	Frequency	Percentage
Poor	40	26.67%
Low Income	38	25.33%
None	36	24.00%
Not specified	36	24.00%
Total	**150**	**100.00%**

Parent Annual Income Brackets

Bracket	Combined annual income
Poor	Below ₱131,484
Low Income	₱131,484 to below ₱262,968
Lower Middle Income	₱262,968 to below ₱525,936
Middle Middle Income	₱525,936 to below ₱920,388
Upper Middle Income	₱920,388 to below ₱1,577,808
Upper Income	₱1,577,808 through ₱2,626,680
Rich	Above ₱2,626,680
None	Both parents reported no annual income (combined ₱0).
Not specified	At least one parent's annual income was marked Not specified.
Not recorded / legacy	Structured parent income is not available for the Inventory.

Combined annual income is the Father's plus the Mother's reported annual income for the previous year; Spouse income is excluded and a parent with no income contributes ₱0. The brackets follow the existing Guidance and Counseling Office Student Profiling reference and are applied exactly as defined there.

Table 10. Distribution of Students by Mother's Occupation

Population: submitted Individual Inventories (n = 150)

Occupation	Frequency	Percentage
Farmer	76	50.67%
None	74	49.33%
Total	**150**	**100.00%**

Table 11. Distribution of Students by Father's Occupation

Population: submitted Individual Inventories (n = 150)

Occupation	Frequency	Percentage
Farmer	76	50.67%
Laborer	74	49.33%
Total	**150**	**100.00%**

Table 12. Distribution of Students by Living Condition

Population: submitted Individual Inventories (n = 150)

Living Condition	Frequency	Percentage
Own House	52	34.67%
Boarding House	50	33.33%
With Relatives	48	32.00%
Total	**150**	**100.00%**

6. Geographic Distribution

Table 13. Distribution of Students by Current City / Municipality of Residence

Population: submitted Individual Inventories (n = 150)

City / Municipality	Province	Region	Frequency	Percentage
Synthetic Municipality 01	Synthetic Province	Synthetic Region	4	2.67%
Synthetic Municipality 02	Synthetic Province	Synthetic Region	4	2.67%
Synthetic Municipality 03	Synthetic Province	Synthetic Region	4	2.67%
Synthetic Municipality 04	Synthetic Province	Synthetic Region	4	2.67%
Synthetic Municipality 05	Synthetic Province	Synthetic Region	4	2.67%
Synthetic Municipality 06	Synthetic Province	Synthetic Region	4	2.67%

Appendix A. Program Breakdown

Each College is printed as its own group of tables, and each later College starts on a new page. College tables use the College's own submitted Inventories as their denominator. Programs are matched by their recorded identity, and every Program and College total reconciles to Table A.

Table A. Submitted Inventory Profile Population by College and Program

Population: submitted Individual Inventories (n = 150)

College	Program	Inventories	% of Population
CAS	CAS-P01-EXTENDED-CURRICULUM — Synthetic Program CAS 1	38	25.33%
CAS	CAS-P02-EXTENDED-CURRICULUM — Synthetic Program CAS 2	38	25.33%
CAS subtotal		**76**	**50.67%**
CCMS	CCMS-P01-EXTENDED-CURRICULUM — Synthetic Program CCMS 1	37	24.67%
CCMS	CCMS-P02-EXTENDED-CURRICULUM — Synthetic Program CCMS 2	37	24.67%
CCMS subtotal		**74**	**49.33%**
Total		**150**	**100.00%**

A1. CAS — College of Synthetic CAS

Main Campus · Submitted Inventories: n = 76 · Programs: CAS-P01-EXTENDED-CURRICULUM (38); CAS-P02-EXTENDED-CURRICULUM (38)

Program columns sum to the CAS Total; % of CAS uses the College population (n = 76) as its denominator. Categories with no responses in this group are not listed.

Table A1.1. CAS — Sex

College population: n = 76

Sex	CAS-P01-EXTENDED-CURRICULUM	CAS-P02-EXTENDED-CURRICULUM	CAS Total	% of CAS
Male	19	19	38	50.00%
Female	19	19	38	50.00%
Total	**38**	**38**	**76**	**100.00%**

Table A1.2. CAS — Age at Inventory Submission

College population: n = 76

Age (years)	CAS-P01-EXTENDED-CURRICULUM	CAS-P02-EXTENDED-CURRICULUM	CAS Total	% of CAS
18	13	13	26	34.21%
19	13	13	26	34.21%
