Small-population privacy notice

This report includes results from a small population or category. Use and share these results carefully because some aggregate results may be easier to associate with individual respondents.

Counts and percentages are exact and are not suppressed.

Methodology and Limitations

Population	Submitted schema-v1 Graduate Tracer Survey responses in COMPASS.
Draft responses	Draft responses are excluded.
Submission period	submitted_from and submitted_to filter response submission dates, not graduation cohorts.
Response rate	No response rate is calculated because COMPASS has no authoritative Graduate Tracer campaign or graduate-roster denominator.
Graduation classification	Graduation College, Program, and Year filters reflect student self-reported academic classification at graduation, not Registrar-verified credentials. Historical records lacking classification remain unclassified and are excluded from contradictory or specific academic filters.

Free-text responses	Free-text survey fields are not automatically classified or aggregated.
Multiple-selection percentages	Multi-select percentages are respondent-selection rates and may sum above 100%.

Sex

Denominator 8
Submitted synthetic respondents

Applicable Population

Multiple Selection No

Category	Count	Percentage (%)
Synthetic category label demonstrating wrapped long text in this printed worksheet with a deliberately extended description	5	62.50
Synthetic comparison category	3	37.50

Civil Status

Denominator 8
Submitted synthetic respondents

Applicable Population

Multiple Selection No

Category	Count	Percentage (%)
Civil Status	5	62.50
Synthetic comparison category	3	37.50

Region Of Origin

Denominator 8
Submitted synthetic respondents

Applicable Population

Multiple Selection No

Category	Count	Percentage (%)

Region Of Origin	5	62.50
Synthetic comparison category	3	37.50

Residence Location

Denominator 8

Submitted synthetic respondents

Applicable Population

Multiple Selection No

Category	Count	Percentage (%)
Residence Location	5	62.50
Synthetic comparison category	3	37.50

Current Employment State

Denominator 8
Submitted synthetic respondents

Applicable Population
Multiple Selection No

Category	Count	Percentage (%)
Current Employment State	5	62.50
Synthetic comparison category	3	37.50

Present Employment Status

Denominator 8
Submitted synthetic respondents

Applicable Population
Multiple Selection No

Category	Count	Percentage (%)
Present Employment Status	5	62.50
Synthetic comparison category	3	37.50

Employer Business Line

Denominator 8
Submitted synthetic respondents

Applicable Population
Multiple Selection No

Category	Count	Percentage (%)
Employer Business Line	5	62.50
Synthetic comparison category	3	37.50

Place Of Work
